

## READY COLD BREW

100 % ARABICA

**COLD BREW COFFEE**

**Roast**

### **Refreshing. Naturally. Caroma Cold Brew.**

Cold Brew in a glass bottle is the perfect companion for anyone who likes it uncomplicated: simply open and enjoy! These drinks are ideal for an energy boost on the go, during sport or in the office. Flavour: Due to the long extraction time at low temperatures, a round and balanced flavour profile is achieved. Sweeter and nuttier notes come to the fore, accompanied by subtle, fruity accents. Caroma Organic Cold Brew is often served neat with ice and a slice of lemon. Our cold brew is also the perfect base for creative mixed drinks! Try a refreshing cold brew tonic, spiced up with tonic water and a slice of lemon. For a sweet flavour, try a cold brew latte mixed with milk and a dash of vanilla syrup. If you prefer something a little more unusual, you can make a cold brew martini by combining cold brew with vodka and a hint of coffee liqueur. Caroma Ready: just chill, pour, and you're good to go
